THE STRIKERS' PAPER.

It Has Made Its Appearance at Salisbury—Its' Aims.

The striking machinists at Spencer have published a paper which they say they intend to send out daily. Its name is The Broad Axe, and it is devoted to the interests of the strikers. In its editorial columns, under the caption of "First Words," it says;

In the face of the most bitter opposition the Daily Broad-Axe makes its appearance. No tongue nor pen can describe the many miserable methods that have been used by the enemies of organized labor to head off the publication of a newspaper that wage-earners can call their friend. * * * *

The Broad-Axe banners were unfurled to the breezes, and soon the howling winds of opposition raged, and the raged rascals ranged their rusty muskets, and now we see the goose that stood behind the gun, dead "?" * * * * * * * * * * *

The policy of this paper is under the control of a committee appointed by the Salisbury Central Labor Union. This committee is composed of represetntatives from each trade union of Salisbury and are men of sound judgment and good sense. It is their purpose to have the paper conducted on a broad guage basis. They believe that all men are born equal and that eo belong in the ranks of organized labor is not a crime. * * * *

We shall be glad to live in peace with all men. If we cannot, then we shall be glad to live. The paper will speak out against the oppressor, but shall speak kindly of the friendly manufacturer. Its policy shall be to build us, and not break down deserving men and measures. The question of education shall be disucssed continuously in these columns.

Many a man who is open to conviction manages to escape it by hanging the jury.

At the age of sweet sixteen a woman's rights are several lengths ahead of a man's.

COUNTER PETITION PRESENTED.

PRESENTED LAST NIGHT BY REV. W. L. GRISSOM.

The Board of Aldermen Hold a Most Interesting Session—A Baggage Transfer Ordinance Passed—Other Matters Passed Upon.

The Board of Aldermen met last night in adjourned session, with the following aldermen present: Merrimon, Helms, Bain, Denny, Sergeant, Glascock, Phipps, Elam and Sherwood.

This being an adjourned meeting no minutes were read.

Dr. W. L. Grissom presented a petition from citizens residing on West Market street, and streets lying adjacent thereto, asking that the said street be graded, and put in condition for the operation thereon of a street railway, and asking further that no amendment be made to the franchise already granted the Greensboro Electric Company, prohibiting their operating street cars on the said street. This petition was signed by 90 persons.

It was maved that the petition be referred to the Street Committee. Carried.

Mr. G. C. Hampton presented a petition signed by a number of citizens living on Lithia street and streets adjacent thereto, asking that Lithia street be graded so that the car line could be run on said street. Moved that this petition be referred to the Street Committee. Carried.

Mr. Z. V. Taylor appeared and asked that the Board pass an ordinance that no person or persons shall engage in the business of baggage transfer without a license, and without having deposited with city a certified bond of $500 to indemnify any person whose baggage is lost or damaged. Not less than three wagons shall be operated by any firm or individual, and the drivers of each and every wagon shall wear a uniform, to wit, a cap, bearing the name of the party owning the line, and underneath the word, bonded.

Alderman Bain thought that the ordinance was a monopoly and that person who was a responsible person and could give the necessary bond but who could operate but one wagon, should be kept out.

Alderman Merrimon moved that the clause relating to the number of wagons be changed to one. Motion lost by a vote of 6 to 3, and the ordinance was adopted by a similar vote.

Mr. Taylor asked that an inspector be appointed, whose business it shall be to inspect the wiring of every house before turning electricity in said house, said inspector to file a report of each house wired with the city clerk, before the current is turned in. Said inspector's fee for inspecting a house to be $1.00.

Moved that the office of electric inspector be created. Carried.

Alderman Glascock moved that Mr. F. A. Barr be elected electric inspector Carried.

Mr. P. D. Gold, Jr., asked that the Board make some arrangements whereby the meeting of the Press Association may be held in the now uncompleted auditorium in the City Hall, whether the building has been received by the city or not. Alderman Glascock moved that the matter be referred to the building committee and that the city attorney with power to act. Carried.

Alderman Denny moved that a warrant be ordered drawn in favor of Abbott & Hobbs in payment of their working setting curbing. Carried.

The settling committee, which is composed of the Finance Committee, made their report. This report, is in a large measure a reproduction of the report of the city treasurer, published in The Telegram about the first of May.

Alderman Sergeant moved that the report be received and ordered spread upon the minutes. Carried.

Alderman Merrimon made a further report showing that on the first day of May the city had outstanding warrants to the amount of $8,052.24, beside the Summit avenue indebtedness.

Mr. Merrimon stated that the Finance Committee had waited upon the different banks in the city asking them to submit a proposition to loan the city a sum of mony necessary to meet the current indebtedness of the city.

The Southern Loan & Trust Company offered a proposition to pay all city warrants to the amount of $25,000 and to charge the city 4 per cent interest on same, the said bank to be designated the depository of the city.

Alderman Sherwood thought that the money remaining over from the electric bonds could be loaned the city and used to pay warrants until the tax money came in.

The City Attorney said that the loaning of the money in that manner would be contrary to the provisions of the bill, which specifically stated that the money was to be used in the manner specified, and none other. He also thought that the city could not appoint any bank as a depository unless the treasurer agreed, as the official had charter privileges which would have to be changed before the city could designate a depository without his consent.

Alderman Merrimon moved that the proposition submitted by the Southern Loan & Trust Company be accepted by the Board, and that the city treasurer be requested to give his consent thereto. (A detailed account of this matter appears in another column.)

Alderman Helms moved that the Finance Committee and the Mayor be empowered to borrow an amount not to exceed $25,000 to pay all indebtedness of the city until August. Carried.

Alderman Helms introduced an ordinace to the effect that any person convicted of defacing or destrying bill board advertisements or signs be fined not less than $1 nor more than $20. Carried.

The question of a license tax being charged to manufacturers was brought up, and it was moved and carried that all manufacturers be charged no special license tax. Board adjourned.

A Dangerous Place.

Asheville Citizen.

The death of Marvin Crowell by drowning in Montiford park yesterday is the second misfortune which has befallen a member of the family of Joseph Crowell with in the last few weeks. Another son, as told in The Citizen recently, had his leg sprained by a horse falling on him, and he has not yet recovered.

The Montford park pond is an exceedingly dangerous place to go swimming for one like young Crowell, who could not swim. The pond is only about 15 feet across, but it is 10 feet deep in the center and the banks are very shelving. Boys have been in swimming there very frequently lately, and could not be kept out. Capt. C. H. Campbell of the park has made every effort to keep the boys out. He drove them away whenever he knew of their being there, and intended to have the next boy he caught there arrested to make an example of him.

The interment of young Crowell will take place today at Hendersonville, where his parents have relatives buried. The body was taken there on the afternoon train south. There was a service here, held at 1 o'clock at the residence on Seney street.

At the Baptist Church.

The Children's Day exercises at the First Baptist church last night was well attended, and those who went were amply repaid for their presence. The little tots acquitted themselves well. Their songs and recitations were fresh and sweet, and were pleasing to the listeners.

The recitations of eight of the tots, four of them costumed as Chinese, and four as Americans, was a pleasing feature of the evening.

One of the prettiest features of the evening, a solo by Miss Ula Adams, was omitted because of the misplacement of the music.

Took the Wrong Medicine.

A report is current on the street this afternon to the effect that a lady on Lithia street, by mistake last night, took a dose of laudanum. Owing to the fact that the telephone wires are in bad condition, no communication can be had with the western part of the city, and the report cannot be verified.

To Be Repeated.

The opera given Monday night by the puplis of Prof. Clarence Brown was so well received that it has been decided to repeat it during fair week. It will no doubt, at this time be greeted by a full house. The second production will take place in the new city hall.

THE WEATHER.

Virginia—Partly cloudy tonight and Friday, light south easterly winds,

North Carolina—Fair tonight and Friday, except probably showers Friday in extreme western portions, variable winds, mostly light north easterly.

Greensboro—Highest temperature past twenty-four hours ending eight o'clock this morning 82, lowest 66, rainfall .06.

The man is never old who, the longer he lives, lives the more.

Women are such a puzzle to men because they are so much a puzzle to themselves.

There is a certain way a girl fixes a lamp when a man is coming to call on her which she calls "just enough lit."

It makes a girl awful mad to catch herself yawning and realize that she has caught it from a man that she just hates.

When a man hates another man the worst, it is for the least reason; when a woman loves a man the best, it is when he is the least worthy.

NEW THIRD PARTY LAUNCHED.

A REFUGE FOR ALL DISSATISFIED VOTETS.

Plans formed at a Conference Attended by Populists, Free Silver Republicans, Socialists, Single-Taxers and Bryan Democrats.

Kansas City, June 19.—The allied third party movement, which its promoters hope will result before 1904 in a national organization strong enough to name a presidential nominee, was launched here today. It was the outcome of a conference of reformers from the ranks of the old parties and its principles are said by some to have been adopted with a view of meeting the views of W. J. Bryan. The conference was called by Lee Merriwether, of St. Louis, who, with 22 other St. Louis leaders in the Public Ownership party of that city, came to Kansas City yesterday from a visit to Mr. Brayan, at Lincoln, whether the intentions of the delegation had been laid before the Nebraska statesman. Mr. Bryan, it was stated, had expressed sympathy with the movement if he had not gone as far as to support it. At the conference there were represented Populists of all persuasions, public ownership was advocated, and Free Silver Republicans, Socialists, single-taxers and Bryan Democrats were in attendance. It was stated that it was proposed to form a third party in Missouri, which would finally be taken up by the dissatisfied interests in the old parties from other States. A committe on organization was apointed. The committee, which represented each element present, today submitted the following as the new party's principles, and they were adopted:

Public ownership of public utilities, such as railroads, telegraphs, etc.; while awaiting the legislation necessary to secure public ownership rigid control of freight and passenger rates and severe penalties for rebates and taxation of railroads and public utility corporations in the same proportion as the value of farm and other property; direct legislation by the initiative and referendum to the end that the people may initiate good legislation and veto bad legislation; graduated income tax to the end that wealth, which receives government protection, bear its just share of the cost of the government; that whatever is used as money shall be all legal tender, issued by the general government in sufficient volume for business purposes and that volume fixed in proportion to population; just election laws throughout the States; homes rule for cities and abolition of the present system of using the police as a standing army to carry primary elections in the interest of dishonest special privilege corporations; election of United States Senators by popular vote.

The meeting organized by electing J. H. Cook, fusion Populist, chairman; J. H. Willis, middle-of-the-road Populist, vice president, and F. S. Kowalski, Public Ownership member, secretary. The committee, besides deciding on the new name for the movement, will call a State convention for some time next month. In the meantime the members will prepare an address to the people. Headquarters will be established both at Carthage and St. Louis and the committee will appoint a chairman of each county in the State, whose duty it will be to enlist members and organize into county clubs. Mr. Merriwether this afternoon, at the conclusion of the conference, was asked.

"Will not your movement only result in turning the State over to the Republicans?"

"I do not know, but I would a little rather the Republicans should win than the present organization of Democrats. As Mr. Bryan said to me last Monday, 'I like an enemy under his own colors better than one who steals my colors.'"

Atlanta, June 19.—The Atlanta Constitution tonight in response to a telegram of inquiry, received a dispatch from W. J. Bryan denying that he was affiliated with the third party movement. Mr. Bryan's telegram reads: "Iowa City, Iowa, June 19.—Telegram received. No truth in report."

A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says. "Exposure after measles induced serious lung trouble, which ended in Consumption. All my doctors said I must soom die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat Chest and Lung troubles." Regular size 50c and $1. Trial bottles free at C. E. Holton's drug store.

SSS and OLD PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.

CONVENT LANTERNS.

An Old Fad with Modern Improvements — An Electrical Display.

In the old days a favorite fad for travelers in ancient lands was the collection of lanterns. Those from ruined convents, decayed mosques and poverty-stricken shrines were prime favorites. The fad is not entirely dead, but the supply has run so short that now enterprising firms in Birmingham, England, and in New York turn out large numbers of excellent imitations, says the Post. The new ones are made by hand, and, so far as strength and durability are concerned, are superior to the ancient designs, which were hand made, but the latter in many instances were ornamented with inlaid work, as well as with carving and twisting of the most artistic type. The machine-made goods can never reproduce these latter characteristics so well as to deceive an expert. The material of the lanterns varies from fine woods and glass to iron, steel, brass, bronze, copper, pewter, and even silver. The simplest forms are cylinders which are perforated with numerous holes, so as to resemble the clumsy sieve. Then comes globes, cubes, octahedra, hexagonal prisms, ovoids and more complex solid forms. The prettiest of all are the mosque lanterns. Many of them are of bronze inlaid with silver, pierced with little windows, and these closed in turn with white or colored glass. With a lighted candle inside they look like a mass of jewels in a dark room. A wealthy man on Brooklyn Heights, who has traveled a great deal, has one of his rooms illuminated by lanterns of this type. They range in size from small affairs four inches in diameter to stately lamps a foot in diameter and two feet high. In place of candles inside he employs electric lights, one bulb to the smaller lanterns and three, four and a dozen to the larger ones. When the current is turned on the splendor of the effect is almost startling. The colors of the glass have been deepened and made richer by the years, and the radiance they give may be compared to that from a great oriel in a Gothic cathedral.

SUCCESSFUL ELECTRICAL TEST

Oakland Street Cars Run by Power Generated 140 Miles Away.

Electric power generated on the Yuba river, 140 miles away, was used in the operation of street cars in Oakland, Cal., the other day. This is said to be the longest transmission of electric power in the world. The power is generated by turbine wheels. The cable, 140 miles in length, is six-tenths of an inch in diameter, and is of copper, with aluminium alloy, which will prevent oxidization. It is this cable that is suspended across the Carquinez straits by a span of 4,400 feet and 300 feet in the air.

The test is considered one of the most successful in the history of electricity, a current of 40,000 volts having been transmitted the entire distance with a loss not to exceed five per cent. Under that showing experts said the voltage could be increased until there would be practically no loss of current. The current used was an alternating current, transmitted through a motor at a power station.

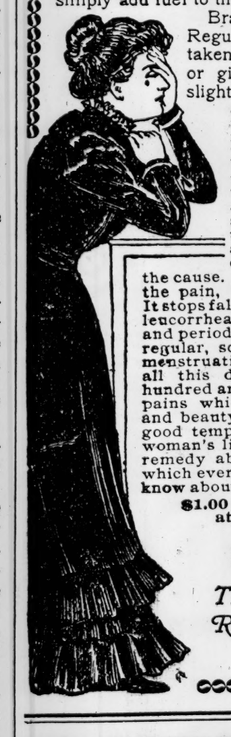
As the voltage of 40,000 was greatly in excess of the power needed, this power will be transmitted over the company's lines to San Jose, a distance of 190 miles from the generating plant.

Will Never Be Popular.

They are now making coffins of paper, but, says the Chicago Record-Herald, the inventor doesn't claim that they are a whit more comfortable than the old style.

If a Woman

wants to put out a fire she doesn't heap on oil and wood. She throws on water, knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sex, she should not add fuel to the fire already burning her life away. She should not take worthless drugs and potions composed of harmful narcotics and opiates. They do not check the disease—they do not cure it—they simply add fuel to the fire.



Bradfield's Female Regulator should be taken by every woman or girl who has the slightest suspicion of any of the ailments which afflict women. They will simply be wasting time until they take it. The Regulator is a purifying, strengthening tonic, which gets at the roots of the disease and cures the cause. It does not drug the pain, it eradicates it. It stops falling of the womb, leucorrhea, inflammation and periodical suffering, irregular, scanty or painful menstruation; and by doing all this drives away the hundred and one aches and pains which drain health and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others which every woman should know about and use.

$1.00 per bottle at any drug store.

GLORIOUS NEWS

Comes from Dr. D. B. Cargile of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, teter, salt rheum, ulcers, boils, and running sores. It estimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggists. Guaranteed.

WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

McELREE'S Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

THURSDAY, JUNE 20.

Wilmington Star:

It seems tc be a sort of Elijah year. In addition to "Elijah" Dowie, out West, a colored Elijah has put in an appearance in Ttexas, and the season is early yet.

A prophet has appeared in Winston, but, so far, he has not proclaimed himself a second Elijah.

The Twin City Sentinel bemoans thus:

Where is the Wadesboro railroad? Where is the union depot? Where is the new auditorium? Where is the cheroot factory? Where are we at? Where, oh, where?

Cheer up, brother, everything comes to him who waits.

AN INTERESTING CASE.

There was begun in Jersey City on Monday a most interesting criminal trial. One Thomas G. Barker is the defendant and he is to be tried for a serious assault upon Rev. John Keller in Arlington, N. J. On the morning of February 3 of this year, as the minister was going to his church. The two men had been great friends and the minister had been a welcome guest at the home of Barker. The New York Sun brings out the interesting points of the case as follows:

Presumably the assault itself will not be denied by the defence. That Barker on the date mentioned lay in wait for Keller, that he shot him practically from behind and without a word of warning, that with his victim lying on the ground he fired three more shots at him, one of which hit him, that Keller as a result of his wounds was for many weeks at death's door, and is partially blind for life—all this has not been denied by Barker. The assault, in fact, was witnessed by three persons, and Barker, when pursued and overtaken by a neighbor who came upon the scene a few minutes after the tragedy, admitted his guilt and gave himself up.

The only defense suggested as likely to be set up in his case is that he was wrought to frenzy through learning a recently a terrible wrong, and that he was for the time being virtually insane and irresponsible. It is the facts connected with this feature of the case which put it well within the group of curious criminal manifestations, for which New Jersey of late has been rather conspicuous:

The explantion given by Barker of his murderous attacks upon a clergyman with whom he lately had been friends, who heretofore had been highly esteemeed both by parishoners, neighbors and church superiors, is that a year and a half before the deadly attempt on Keller's life he, Keller, had committed an atrocious assault upon Barker's wife. The circumstances of this assault, as alleged to have been related to Barker by Mrs. Barker, were of such a character that any man, let alone a husband, might well, by their bare recital, be roused to that pitch of anger which leads to deeds of violence. Whether this awful accusation is true or false, there seems no doubt from all that has been brought out in advance of the trial itself, that Barker believed it to be true and that it was the sole motive which actuated him in his savage attempt to take Mr. Keller's life.

How far the defence will be permitted to go into a question which practically puts Keller as well as Barker on trial, remains to be seen. However, this may be, there are features connected with Barker's charge against Keller which are in themselves so remarkable that there has been a very general suspension of judgement as to Keller's culpability. Why, for instance, did a woman so hideously wronged wait a year and a half before telling her husband of the outrage? And why, having remained silent for a year and a half, did she at that eleventh hour at last speak?

To these questions it is answered that Mrs. Barker at first kept her awful secret because of shame, and from fear of the terible consequences which might follow her husbands' knowledge of it; but that instead of time lightening the burden of her horrible secret it became within every weary month more unendurable. Such is her story, and the story which those whose sympathies are with Barker verily believe. Many of those even who believe Keller an innocent and cruelly wronged man, believe also that Mrs. Barker thinks she is teling the truth when she accuses him. They believe that she is the victim of hysterical hallucination. They point to other cases in history weher like awful charges have been brought by hysterical women against absolutely innocent persons. They believe, in a word, that is is one of those strange psychological phenomena which now and then occur and which so utterly baffle all attempts to reconcile certain actions of apparently sane people with any rational motive or even with any impulse of passion.

So in the trial there are just two questions evalvc vmfg wk wkkwkyq questions evolved about which there cs any mystery. First, is the Rev. John Keller guilty of that with which Mrs. Barker charges him? Secondly, if he is innocent, did Mrs. Barker make the charges as the result of hysteria, or did she in cold blood deliberately concoct a falsehood which she had reason to know, from her husband's character, would result in an attempt at murder?

So far as Barker's mental responsibility for his murderous assault is concerned, the truth or the falsity of Mrs. Barkers' charges does not seem to be involved. The question as to the husband in the case seems to turn on whether the guilt of a man who deliberately lies in wait for his victim and then tries to kill him is palliated by the circumstance that he was in the great passion of belief that he had been diabolically wronged.

ADVERTISING COMMENT.

By THE HUSTLER.

Tonight's the time for the Southside lawn party.

* * *

Trinity College advertises in this issue. The past year has been the best in its history, and the recent commencement was attended by prominent visitors from several states. Mr. Mabie, of New York, recently said in an address: "Trinity is attracting the attention of cultured people in all parts of the United States." It is pleasing to know that the young man of the South has such opportunitites as are furnished by Trinity College. It is the largest college plant in the State and is growing rapidly year year. Last year the donations amounted to something more than $150,000. Write for a catalogue.

LAXAKOLA

THE GREAT TONIC LAXATIVE

At some time, if not habitually, you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or some of the other symptoms and disorders which tell the story of bad bowels and an impaired digestive system. Laxakola will cure you. It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels will move regularly, your liver and kidneys will cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers who had been seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, find Laxakola an ideal medicine for children. Children like its taste and ask for it. It keeps their bowels regular without any pain or griping, and acts as a general tonic at the same time. It will assist nature, aid digestion, relieve restlessness, clear the coated tongue, reduce fever, cause refreshing, restful sleep and make them well, happy and hearty.

Laxakola, the great laxative tonic, is not only most the efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

TO RELIEVE THE CITY'S CREDIT.

SOUTHERN LOAN AND TRUST COMPANY MADE CITY DEPOSITORY.

City Warrants Will Be Paid Upon Presentation—The Proposition Made the City by the Southern Loan and Trust Company.

The Telegram last Thursday called the attention of its readers to the disrepute in which the city's warrants had fallen, and sugested a remedy therefor. On the following day the chairman of the Finance Committee asked the several banks of the city to attend the meeting of the Board of Aldermen that night, and submit propositions for the relief of the city credit, and to state teh terms upon which they would be willing to cash the city's warrants when presented. The matter was not taken up at the meeting Friday night but came up last night. None of the banks were represented except the Southern Loan & Trust Company, who made the following proposition:

To the Board of Aldermen of the City of Greensboro:

Gentlemen—The Chairman of your Finance Committee called on us this morning and requested that we submit a proposition designating the terms upon which we would cash the city's warrants whenever presented, our proposition, together with propositions from the other banks of the city, to be submitted to your honorable body at its regular meeting on Friday night. the 14th instant. The chairman further stated that the bank whose terms were found to be satisfactory would be made the depository of the city's funds. After careful consideration, recognizing the importance to the city of Greensboro's progressnu nun uunun Greensboro of maintaining the best credit. and interested as we are in have concluded to submit a proposition whose terms shall provide for all the accommodation the city can need, but for not one dollar of profit to us at the city's expense.

The Southern Loan & Trust Company has on deposit by the City at four per cent interest its part of the proceeds of the last sale of bonds, the other banks of Greensboro having the balance, and we have concluded not to exact from the city under the terms of our proposition a higher rate of interest than we are now paying the city on the deposit referred to above.

We propose to take notes of the city of Greensboro from time to time, aggregating any amount not exceeding $25,000 at four per cent interest and to redeem the city's warrants to the amount just designated, the only condition of this proposition being that the Southern Loan & Trust Company shall be the depository of the City of Greensboro of all monies as paid into the city treasury, including such part of the unexpended proceeds of bonds already sold or to be sold as the Southern Loan & Trust Company is willing to handle at four per cent interest.

Respectfully submitted,
SOUTHERN LOAN & TRUST CO.
By R. G. Vaughn, Treasurer.
Greensboro, N. C., June 14, 1901.

Alderman Merrimon moved that the proposition of the Southern Loan & Trust Company be accepted. The objection was then brought forward that the city could not lawfully designate a depository for the funds of the city unless the charter was amended, or the city treasurer consented to the designation of such depository.

Alderman Merrimon then offered the following motion which was carried by an aye and nay vote, the vote being unanimous, not a single dissenting voice being heard on the proposition:

"Resolved, by the Board of Aldermen of the City of Greensboro, N. C.:

"That it is the sense of this Board that the proposition of the Southern Loan & Trust Company is a most advantageous one for the city and that the same be accepted, provided the city treasurer consents thereto; and whereas there is some question as to the rights of the Treasurer under the charter to resist the appointment of a depository, it is further resolved that the city treasurer be requested to accede to this arrangement, and that he and his bond be released as to any liability for any money placed in the depository and while remaining there."

To Run Refreshment Car.

Mr. J. H. West left this morning for Danville, Va., to join the excursion from that place going to Washington. He will run the refreshment car.

A number of Greensboro people left on the early train for Danville, also bound for Washington.

Once again—don't fail to go to the Southside lawn party this evening.

MARRIAGE YESTERDAY.

Mr. Dolph Moore and Miss Georgia Cooper Wedded in South Greensboro.

A romantic marriage took place in this city yesterday afternoon at 4:30 o'clock, the contracting parties being Mr. Dolph Moore, formerly of this city, and Miss Georgia Cooper. The ceremony was performed by Rev. H. K. Boyer, pastor of Centenary Methodist church, at his residence.

Mr. Moore came from Graham yesterday morning, and secured the services of Mr. Kemp Battle, who procured the necessary license, and then accompanied the young couple to the residence of Mr. Boyer where the two were made one.

It is said that some objection to the match existed on the part of the girl's parents, and the couple took matters into their own hands.

Mr. and Mrs. Moore were driven through the country to High Point, and from there left last night for Indianapolis, Indiana, where they will reside in the future.

RECEPTION COMMITTEE.

Those Who Will Receive and Entertain the Press Association.

Mayor W. H. Osborn has appointed the following reception committe to receive and entertain the State Press Association which meets in Greensboro, July 10 and 11. This committee is hereby requested to meet in Messrs. Brooks & Murphy's law office in the Mendenhall building, tomorrow, Friday, June 21, at 8:30 p. m., to organize and discuss matters of importance. A full attendange is desired:

P. L. Gold, Chairman.

Jas H. Walsh, Secretary and Treasurer; C. E. Holton, J. D. Helms, E. P. Wharton, A. B Kimball, W. I. Underwood, J S. Hunter, Charles Cunningham, G. Arthur Rankin, J. Y. Joyner, Capt. J. W. Fry, S. H. Boyd, C. H. Ireland, M. L. Shields, Will McAdoo, Frank Boyles, A. L. Brooks, Maj. Joe Morehead, Erle Scarborough, T. J. Murphy, Joe Reece.

THINK HIM GUILTY.

People at High Point Indignant over Prof. McKnight's Action.

High Point, N. C., June 20.—Harry P. Macknight, of the Hamner School of Science and Healing, operating in the town of High Point, has caused papers to be issued on several citizens of this place, whom he charges with complicity in his attempted arrest the other evening and the young lady who figures in the reported scandal of a few days since, has had papers taken out charging Chief of Police Bennett and Frank Sechrest, of this place with slandering her. The trial will be before Squire Wolf in Greensboro Saturday. These indictments will serve the purpose of arousing feeling which is already at high tension against MacKnight. The people here believe him to be guilty of the acts brought against him by Mr. Bennett and think MacKnight has fared too lightly and are indignant over this last bold step of his.

HAS HE A TWIN BROTHER?

Gentlemen in the City Who Closely Resembles One of the Gold Brickers.

A gentleman passed through the city this morning going to Winston, who was the exact counterpart of Hawley, one of the gold brick prisoners now in jail in this city. Hawley, it will be remembered, was the assayer.

The gentleman in question, was the same size, much of the same build, and had a beard identical with that worn by the prisoner. The likeness was recognized by several gentlemen who saw him, and the fact was commented upon. One gentleman thought he must be Hawley's twin brother.

Retailer Bound Over.

The Mayor held a smal sized court yesterday and dealt out justice with an impartial hand. Among the offenders were Lem Benton and James Prevoy, affray. The former was sent on to court, and the latter was assessed $3. Claude Worth for disorderly conduct paid $7.60. Jennie Simmons for retailing was sent on to court, and Arthur Hackney, for an assault was fined $7.60.

Runners Wanted.

Mr. C. E. Brower, captain of the running team of the Southside Hose Company, wants every young man who can run, and who is a member of, or interested in, the Southside Hose Company, to meet him on East Market street tomorrow afternoon at half past six o'clock for the purpose of organizing a running team to keep the championship belt this year.

TO LEAVE WHILE ABLE.

Man Living Near Revolution Ponds Says He Will Leave Before He is Unable to Do So.

Mrs. Elizabeth Johnson, of Proximity, died yesterday at that place of consumption, and the remains were taken this morning to Haw River for interment.

The remains of a 7 year old boy were buried yesterday at Proximity. The cause of his death could not be learned, but it is attributed to the sanitary condition of that community. The family of which the boy was a member are all sick, and one of the members of the family died only a few days ago. A subscription was taken among the mill employees to raise an amount sufficient to bury the boy.

One of the men who lives in the community, in conversation with a Telegram reporter this morning stated that the ponds in his vicinity were now in worse condition than before any work was done on them, that the filth had only been stirred up by the work done, and that he and his family were going to leave before they became unable to do so, as was the condition of many of the people there.

MARRIAGE IN REIDSVILLE.

Miss Emma Galloway, of Reidsville, and Mr. Jos. Scales, of Niagara Falls, Wed.

A pretty marriage was celebrated last night at the home of Mr. and Mrs. Alec Galloway in Reidsville, the contracting parties being Miss Emma Galloway, of Reidsville, and Mr. Jos. H. Scales, of Niagara Falls, N. Y.

Dr. Parker, of Niagara, was best man and Miss Annie Galloway, sister of the bride, maid of honor. The ceremony was performed by Rev. Frederick Fetter, of Reidsville, and was witnessed by a large company of relatives and friends of the young couple. Their popularity was testified by the many presents, costly and handsome, of which they were the recipients.

The ceremony was to have been performed in the church, but owing to the sickness of the mother of the bride, it was held at home. The newly wedded couple left on the 11 o'clock train for their future home in Niagara.

THEY MUST COME.

When Summoned as Witnesses in the Mayor's Court Everybody Must Attend.

Many people seem to have lax ideas about attending the mayor's court when summoned as witnesses. They seem to think that if they do not want to go, they need no do so. Recently one sent word as an excuse of non-attendance, that he knew nothing whatever of the case.

Mayor Osborn says that he is going to have them come when summoned. Whether they know anything about the case or not, when summoned they must attend. He issued a warrant yesterday for a witness for his failure to appear when summoned.

ROYAL ARCH MASONS.

There will be a regular Convocation of Charazin Chapter 13, R. A. M. this evening at 8 o'clock. Please be prompt.

N. L. HALL, H. P.
W. T. GAYLE, Secretary.

NOTICE.

A call meeting of the G. S. F. E. Co., No. 1, to meet Friday evening at 8 o'clock in the Firemen's Hall. Business of importance will be transacted.

By order of the president.
J. T. ABBOTT.
HARRY LEWIS, Secretary.

CARD OF THANKS.

The Woman's Auxiliary of Saint Barnabas Church wish to thank their friends and patrons for their generous response to their lawn party last evening. Especially are they indebted to our accommodating daily papers. The next of the series of summer fetes will probably be given when this moon fulls.

A PURITAN PARTY.

On Friday night the Busy Bee Society of St. Andrews church will give a lawn party at the Vernon place, corner of Asheboro and Lee streets, South Greensboro. The little girls will be dressed in Puritan costumes. All friends and the public invited Friday night.

HELP THE CHILDREN

I want to send the Orphans at Oxford a coop of chickens on Saturday morning. I have a lot promised from the country. If any of our good town folks have any they would like to send let me have them tomorrow. If it is only one, it will help, it will make one child happier and do him or her good.

There's a Difference In Waist Laundering.

The work we are doing is no more like the ordinary than black is like white. Any lady who sends her waists to us will tell you so. It is because we know how, and take pains with our work, have every little detail as it should be. Colors are kept perfectly fresh and do not fade. Plain shirt waist 10 cents.

PROTECTING CHILDREN.
Interesting Discussion Excited by New Anti-Child Labor Law of Tennessee.

Detroit Free Press.

Many of the mill owners in Tennessee are condemning the new State law prohibiting the employment of children under fourteen years of age in factories, mines and shops. The law has just gone into effect, and the employers declare that they can stand it better than parents who have been relying on their children's labor for partial support.There is hardly a question that this latter statement is true, and pity 'tis true. Social conditions are such, what with the increase of labor-saving machinery, the intensity of competition, and the numerical force of the workingmen's progeny, that wages are too small for the head of an average workingman's family to house, clothe, feed, and educate them as they should be housed, clothed, fed and educated until sufficiently developed physically, if not mentally, to begin the battle of life for themeselves.

We have societies for the prevention of cruelty to children, but their sphere does not include the prevention of employment except in cases, possibly, where it might be deemed to hard on the child, and these would have to be extreme before interference by the society would legally recognized. But what can be more cruel than the enforced employment of children from ten to fourteen years of age, when their future is considered? "Honor thy father and thy mother, that thy days may be long," is one of the commandments; but there are many fathers and mothers wholly unworthy of being honored by their children, or by any one else, for that matter. Brought into this world without any volition on their part, children are entitled to all that can be done for them by their parents, in the way of providing creature comforts and wholesome training and preparation for life's struggle, much more than are parents entitled to honor from children unless worthy of it.

Whether parents who bring children into the world without thought of their future are entitled to be honored by the children, be the parents ever so willing to do for them, but without ability to perform that duty, is a question. It is very appropriate, therefore, that the State interfere in behalf of its future citizenship, at least to the extent of compelling parents to meet the situation mainly produced by themselves without dwarfing their offsprings physically or mentally by placing the nose to the grindstone at too early an age. It has provided the public school system in aid of the higher development of future citizenship, and until a child is fourteen years of age compulsory attendance at school should be required for even a greater length of time than now provided. Referring to the lead taken among the Southern States in this matter by Tennessee, the Springfield Republican says "it is better that this generation should starve than the oncoming one should be crippled and stunted in growth to feed it," and this sentiment should find affirmative response in every State of the Union.

Here's a Mystery.

Virginian Pilot.

Some months ago the Norfolk county authorities arrested two negroes for stealing, but as they were captured in a house supposed to have been infected with smallpox they were sent to the detention camp on Craney Island, as suspects.

To insure their safe keeping they were chained together by leg shackles, the diameter of the lock cuff for the ankle at each end of the chain being three inches.

The negroes made their escape from the island and up to yesterday no trace of them had been found. But yesterday two small boys playing in C. E. Scott's wood yard in Brambleton, found a pair of leg shackles and turned them over to an officer, who brought them to police headquarters. They were there identified as being the ones locked on the legs of the two negro suspects.

Strange to say, the shackles were locked when found.

They are of a fine make and the question now racking the minds of the police is, "how the negroes got separated from the shackles?"

HEALF THYSELF.

Ninety-nine of every hundred people suffer to some extent from indigestion heartburn, nervousness, constipation and dyspepsia. "Coleman's Guarantee" positively cures such cases. "Take it, eat what you want and be happy." Price 50c. large bottle, at druggists.

ODDS AND ENDS.

England is preparing the medals for the South African war. They will be of silver. Five presses with a daily output of 160 medals will be used in issuing them.

Postmaster General Smith's estimate of stamps needed for the coming fiscal year is as follows: 1,078,186,000 1-cent stamps, 3,019,834,000 2's, 84,700,000 3's, 35,000,000 4's, 62,200,000 5's, 9,800,000 6's, 16,800,000 8's, 26,100,000 10's, 3,500,000 15's, 70,000 50's, 40,000 $1's, 3,000 $2's, 4,000 $5's and 7,850,000 special delivery.

A sailor named Wilson, who was on the Oregon when she grounded on the rocks recently, is authority for the statement that after she had stuck there three days a big modern Chinese cruiser hove in sight chased by the Russians. As she approached the Oregon she ran up an American flag. Her officers claimed the protection of Capt. Wilds and got it.

The largest time ball in the United States is being erected in Philadelphia on the roof of the Fourth street end of the bourse. The ball, which is four feet in diameter and weighs 60 pounds, will be hoisted to the top of an iron column, 190 feet above tidewater, five minutes before noon each day and be dropped electrically 40 feet to an air cushion exactly at noon by the naval observatory clock in Washington. The object of the time ball is to enable all the mariners in the Delaware and Schuylkill rivers to regulate their chronometers before sailing.

THE LOWER ORDERS OF LIFE.

The whale is a big fish in the sea only on account of his colossal proportions. As a navigator he is not much of a success. His utmost speed in swimming is only about ten miles an hour.

Snakes of all sizes abound in the Sumatra jungles. Monster lizards are there, measuring six and seven feet. The house lizard is about 12 inches long, and makes a noise like the bark of a toy terrier.

A camel, with an ordinary load of 400 pounds, can travel 12 to 14 days without water, going 14 miles a day. Camels are fit to work at five years old, but their strength begins to decline at 25, although they live usually until 40. They are often fattened at 30 for food, the flesh tasting like beef.

In the island of Minora, one of the Philippines, the humming birds are pugnacious little creatures. A hunting party had a novel experience with them. One of the huntsmen wandered off from his comrades, but soon his screams were heard. Thousands of the humming birds had attacked him, and wounded him in hundreds of spots on his face and neck. When rescued he was streaming with blood.

LYNCHING AT LAGRANGE.

Would-be Rapist is Taken from Guard House and Hanged.

News and Observer.

LaGrange, N. C., June 19.—The town was thrown into wild excitement yesterday about an hour before noon by the rumor that Mrs. Noah Waters, a young married lady of highly respectable family had been criminally assaulted by Dock B. Jones, a worthless negro vagabond. The facts as developed are about as follows: About 11 o'clock yesterday morning Mrs. Waters, who lives about two miles from town was picking huckleberries near her house when she was approached by a negro who offered her a drink from a bottle of whiskey. She refused and attempted to escape from him when he deterred her by forcible means and continued to offer her whiskey, making at the same time criminal proposals to her. She was badly frightened and made a violent attempt to escape from the negro when fortunately her husband, who had been to a neighbor's house approached and hearing her struggles with the brute ran to her assistance, when the negro fled.

Mrs. Waters was prostrated from fright and nervousness and was taken to the house by her husband when medical attention was summoned.

News of the affair soon spread and search was made for the negro. After several hourse search he was found and arrested in the outskirts of the town and placed in the guard house.

Last night about ten o'clock the guard house was broken open and the negro taken out by a large number of indignant citizens and he has not since been seen. The tracks of the party show that they took the negro about half a mile out of town where evidences were found of violent struggling. The chief of police here has two short pieces of the handle of a stout buggy whip loaded with iron which show fresh breaks as though they were broken over the negro's head. No one seems to know anything of what was done with him, but every one will say that he will never trouble the people any more. Others confidently assert that he was killed by the mob though this is given as opinion merely.

Mr. Wells, the chief of police, says that the tracks of the party show that they returned to town by the same route they went to the scene, but no evidence appears of the negro having left the scene. He could easily have been traced if he had left alone.

Mrs. Waters is a young woman of thirty or less, of pleasing appearance and has always borne a good character. Her husband with whom I have talked, is an intelligent young farmer and a man of good standing in the community. He says that all that saved his wife was his timely appearance on the scene of trouble.

With His Gospel Wagon.

Winston Sentinel.

Evangelist W. N. Flanders is camped with his new gospel wagon near the old Zinzendorf site on West End, having returned from Charlotte where he has been spending several months preaching. Mrs. Flanders will leave here about next Tuesday for Ruffin where he will hold a series of meetings. He will be assisted there on Sunday June 29th, by Mr. Fred N. Day. Mr. Flanders will go from Ruffin for a trip through the mountains.

IN OTHER LANDS.

The Egyptian government is about to establish a post office savings bank.

No picture is hung on the walls of the Louvre, in Paris, until the artist has been dead ten years.

Nice, for 200 years, has been famous for its violet extracts and perfumes made from mignonette.

The last annual statistics of Mexico show that the value of the corn crop was $142,000,000, while that of the wheat crop was only $16,000,000.

According to a Rome correspondent, there is a strong movement on foot to induce Verdi to write a national anthem for Italy. At present nothing of the kind exists.

The largest and most cumbersome form of money is found in central Africa, where the natives use a cross-shaped ingot of copper ore over ten inches long. It is heavy enough to be a formidable weapon.

SCHOOL AND COLLEGE.

Not only is education free in New Zealand, but, where necessary, children are conveyed to and from school gratuitously on the government railways.

Two little Indian girls have been admitted as pupils to public school No. 45, in Manhattan. They are the first of their race to ever attend a New York public school.

The average age of the present freshman class at Yale is 19 years and two months—eight months more than the average age of new students at the New Haven institution for many years.

Women are rapidly displacing men as teachers in the schools of New York. During the last year there was a decrease of 217 in the number of men employed, while the number of women teachers increased 1,073.

MARINE INTERESTS.

During 1899 Spain bought 67 ships in England.

The fisheries on Lake Erie give employment to 3,728 persons.

In 1880 there were in all the world less than 50 shipbuilding yards. Today there are more than 700 shipbuilding yards, turning out a total of 1,000 vessels yearly.

In 1800 the Indian canoe was practically the only floating vehicle on the great lakes, which hold one-third of all the fresh water in the world. Today the lake fleet numbers several thousand steel steamers, with 70 shipyards on the shores of the lakes to add constantly to the number.

Southern Railway

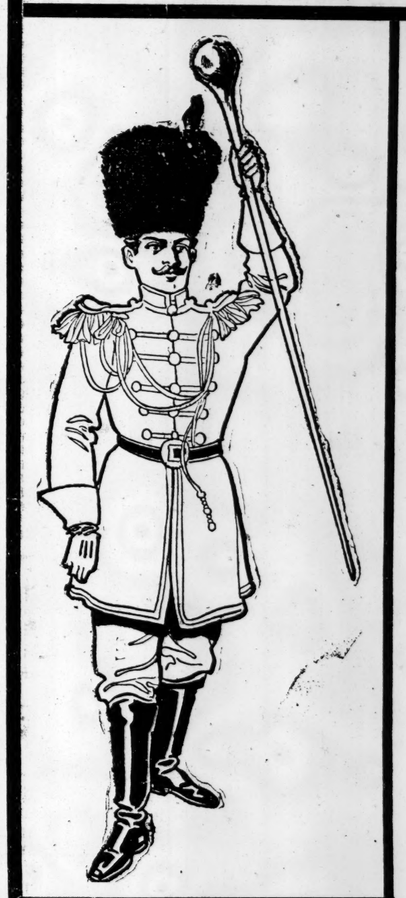
Commanding Attention



There are several ways of getting attention.

You can attract it, draw it, plead for it, ask for it, and command it.

Which would you rather do with your printed announcement?

Everyone who makes things to sell or who does things for money, has something so say to the public.

The way that you say it is as important at least as what you say.

What you say is your part.

The way you say it is ours.

Printing that cannot be turned down, mislaid, sidetracked or overlooked is the kind we do.

It is distinguished printing—printing that not only may, but which must be seen—printing which doesn't simply ask, but which demands and commands attention.

Are not these the characteristics you want in your printing? Then come in and talk to us about the next booklet, folder, circular or other business-bringing printing thing.

The Telegram Press,

Greensboro, N. C.

TAR HEEL COUGH SYRUP. A wonderful cough remedy, made from pure tar from the pine regions of North Carolina. Positively cures coughs, colds in the chest or lungs, and incipient consumption. Always reliable. It is splendid for children, tastes good, doses are small. For sale by all druggists at 25 Cents.
TRADE MARK NO. 29191.
For Sale by Proximity Store Company.

A SPRAINED ANKLE QUICKLY CURED.

"At one time I suffered from a severe sprain of the ankle," says George E. Cary, editor of the Guide, Washington Va.,"After using several well recommended medicines with out success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by C. E. Holton, druggist.

A GOOD COUGH MEDICINE,

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by C. E. Holton, druggist.

Call and give them a look.

Vanstory Clothing Co.

ONE PRICE CASH CLOTHIERS.

Dropsy

starting in the feet or ankles comes from a weak or diseased heart—a heart that cannot keep up the circulation. The blood then settles in the lower limbs where the watery portions ooze out into surrounding tissues causing bloat and swelling. The heart must be strengthened and built up before the dropsy can be cured to stay; and the best of all heart medicines is Dr. Miles' Heart Cure.

"I had palpitation, shortness of breath, pain in heart, swelling of feet and ankles, hungry spells and was confined to my bed and easy chair. A few bottles of Dr. Miles' Heart Cure made me well."
MRS. C. OSBORNE, Clyde, O.

Dr. Miles' Heart Cure

gives new strength to the heart, regulates the circulation, stimulates the digestion and restores health. Sold by druggists on a guarantee.
